## WORK EXPERIENCE

---

### Junior Full Stack Java Developer

Generation USA

Remote

Feb. 2023 – Jun. 2023

- Utilized frontend technologies including HTML, CSS, JavaScript, and Bootstrap to create responsive websites.
- Worked with backend technologies such as Java, Spring Boot, and SQL to create full-stack web applications.
- Participated in collaborative projects, working closely with fellow developers to create a full-stack social media website.

### Freelance Developer

Self Employed

Remote

Jan. 2023 – Feb. 2023

- Designed and developed responsive websites using HTML, CSS, and JavaScript, implementing modern design principles to create an engaging and visually appealing website.
- Communicated regularly with clients, providing progress updates to ensure client satisfaction throughout the development process.
- Demonstrated effective time management and project planning skills, consistently completing work within clients' deadlines while maintaining high-quality standards.

### Customer Service Associate

The Home Depot

LaGrange, Georgia

May 2022 – Oct. 2022

- Collaborated with other members of the service desk team to solve complex issues, track the progress of online orders, and follow up on orders.
- Participated in regular training to stay up-to-date on topics.
- Responded to in-person and over the phone requests for information about items and services.

## TECHNICAL SKILLS

---

- HTML, CSS, JavaScript, Bootstrap, SQL, Java, Git, SOLID OOP Principles, Supabase

## PROJECTS

---

### ComeStays

Client Project - [comestays.com](https://comestays.com)

- A fully responsive website developed using HTML, CSS, and JavaScript.
- Implemented a mobile-first workflow to prioritize seamless user experience.
- Utilized Figma as a design tool to create website mockups, ensuring an intuitive and visually appealing user interface.

### NovelNook

Personal Project - [novelnook.netlify.app](https://novelnook.netlify.app)

- A fully responsive website developed using HTML, CSS, JavaScript, and Supabase.
- Integrated the NYTimes API to generate an extensive collection of book recommendations
- Implemented Supabase for user authentication and utilized the Supabase database to store users' libraries, ensuring data persistence and cross-device accessibility.

## EDUCATION

---

### High School Diploma

American School of Correspondence

Lansing, Illinois

Mar. 2022

- Demonstrated exceptional self-discipline and time management abilities while being homeschooled, showcasing the capacity to independently plan and execute tasks effectively.
